### Clinical Innovations

Name/location (dates if applicable)	Description
Interpreter phone application, Massachusetts General Hospital (2020–2022)	I started an improvement project to make interpreters more accessible in the hospital. When we rolled out a phone application, I was the lead clinician involved with the trial.
<a href="#">www.AmoXClav.com</a> (2021–present)	Together with a pharmacist, I created an online clinical decision support tool to recommend appropriate formulations/ratios of amoxicillin-clavulanate to prescribe based on age, weight, and indication. I created and programmed the website; the pharmacist verified the methodology and quality.
<a href="#">www.InfusionCalc.com</a> (2022)	Together with a pharmacist, I created an online clinical decision support tool to verify the administration rates for uptitration of IV immunoglobulin and rituximab infusions.

### REPORT OF TEACHING AND EDUCATION INNOVATIONS

Teaching/education innovation (date if applicable)	Description
Virtual pediatric clerkship (2020)	Led the development of a “Mock Wards Day” to simulate rounding and clinical decision making for pediatric clerkship students who were learning remotely in the setting of the COVID-19 pandemic.
